Double injected deck for more grip

Wheels

PU + LED

Special

Height adjustable + foldable

One-click fold

With one click our Foldable Deluxe folds into a light-weight package that can be carried and stored with ease. For hop on, hop off journeys. For clutter-free homes. For the freedom to take your Micro anywhere. With zero compromises on the ride kids love.

Lean to steer

Kids lean, and the scooter turns the same way. It's as simple as that. Our patented system makes steering a breeze. And here's the clever part - children are building their coordination, balance and fine motor skills as they scoot.

Putting the luxe in deluxe

Colour pop anodised stem for extra protection against wear and tear. Extra grippy silicone mouldings on a reinforced fibreglass footplate. Impressive increased weight limit. And of course our adjustable handlebar. The most refined ride in town.

Built to last

Made with replaceable parts to last a lifetime of scooting. Tested to withstand the toughest adventures. Designed to grow and adapt.
